**INTRODUCTION & WELCOME**

Welcome to BP Ultimate Rally-Raid Portugal!

With unique conditions for cross-country competitions, Portugal once again hosts the only round held in Europe of the World Rally-Raid Championship.

In this third edition, the event organized by the Automóvel Club de Portugal reflects our brand: to innovate, to grow, and to provide a great spectacle for the thousands of fans of the sport.

An adventure-filled challenge awaits you between March 17 and 22. Right from the start, there will be three bivouacs: Grândola once again hosts the start and the first days of the competition; the competitors then heads to the Spanish region of Extremadura, as in the previous edition; the major novelty is the finale, which will take place in the Algarve, more specifically in Loulé. It is also with the Algarve sea as a backdrop that the winners of the event will be crowned.

A tough and demanding rally is expected, and for that very reason, one that is unique in the championship, with a route that will thrill the crowds of fans with the performances of the cars and the motorcycles.

The bp Ultimate Rally-Raid Portugal scores internationally for the FIA and FIM Rally-Raid World Championship.

A word of thanks to all the municipalities involved in the event's itinerary and to the indispensable support of the sponsors, as well as the various entities responsible for safety.

Committed to the FIA Sustainability Program and the FIM Environmental Code, we continue the work developed to minimize the environmental impact of the event, with efficient measures that set an example at both national and international levels. Proof of this is the distinction received in 2025 of the FIA 3-Star Environmental Accreditation, the highest level of environmental recognition and the first in the championship to reach this level.

The ACP's strong commitment to this event, as well as the contribution the club makes to society as a promoter of events that fight seasonality and the neglect of inland regions, so often forgotten by political and economic agents.

Finally, I would like to speak to you about safety. The enormous enthusiasm surrounding this event should be a hallmark of sport and tourism. Only with everyone's commitment will it be possible to have a rally crowned with success!

Carlos Barbosa  
Chairman of the Organising Committee

## **BIVOUACS & RACE CONTROL**

### Bivouac Grândola

Location – Parque de Feiras e Exposições  
GPS – 38° 11.114'N / 8° 33.995'W

The Bivouac in Grandola will be open for teams from March 14<sup>th</sup> and offer the following conditions: Electricity, Catering, Toilets, Showers and first aid post (24 hours per day). Petrol stations and car washes are listed in chapter 11 of this Rally Guide.

**Bivouac Badajoz**

Location – Feria Badajoz IFEBA  
 GPS – 38° 52.856'N / 7° 1.660'W

The Bivouac in Badajoz will be in IFEBA, outside the city center and close to the border with Portugal. All the conditions will be available in Grândola and complementary services are listed in chapter 11 of this Rally Guide.

**Bivouac Loulé**

Location – Algarve Stadium  
 GPS – 37° 5.317'N / 7° 58.644'W

The Loulé Bivouac will be at the Algarve Stadium, next to the A22 motorway. Once again, all the facilities available at previous bivouacs will be available to competitors. All additional services are listed in chapter 11 of this Rally Guide.

## BP ULTIMATE RALLY RAID PORTUGAL ENVIRONMENTAL POLICY

The ACP – Automóvel Club de Portugal, as the organiser of BP Ultimate Rally Raid Portugal, is committed to the FIA Sustainability Programme and the FIM Environmental Code, with the aim of minimising the environmental impact of the event and setting an example on environmental issues, both nationally and internationally.

Therefore, BP Ultimate Rally Raid Portugal, through its Environmental Management System, will be guided by the following principles:

- Comply with applicable environmental legislation, as well as other obligations voluntarily assumed, including the FIA Environmental Accreditation Programme and the FIM Environmental Code;
- Inform and train everyone involved in the organisation about its environmental policy;
- Promote environmental awareness among our stakeholders (organisation, drivers, teams, volunteers, media, spectators and all external suppliers) and encourage them to make a personal commitment to this issue;
- Take into account the environmental impact when choosing partners and suppliers, as well as in the process of selecting and purchasing products and services;
- Reduce the environmental impact in terms of transportation, as far as possible, encouraging carpooling and car sharing, as well as the use of public transport;
- Promote responsibility in preserving the environment by managing and monitoring the direct and indirect impacts of the event, in particular energy consumption and associated greenhouse gas emissions, water consumption and other natural resources, and proper waste management;
- Encourage adequate and proactive management of environmental risk, in particular pollution prevention and emergency response to accidents and/or disasters;
- Promote the continuous improvement of processes, practices and environmental developments by defining and evaluating progressively more ambitious environmental objectives.

This Environmental Policy, supported by a strong “performance against objectives” attitude, will regularly be reviewed and updated, ensuring continuous improvement of the entire Environmental Management System.

The Organising Committee of BP Ultimate Rally Raid Portugal
